Hi Don,

My apologies for the delayed reply but I was off last week Friday.

Our new board is still getting settled in, so they tend to ask a lot of questions even on what were previously mundane and routine agenda items. As such, the meetings have been running long. 11:30 - 12:00 would be a good guesstimate as to when the meeting itself might be concluded. Folks usually leave after their agenda item is heard so folks might be able to leave as soon as 10:00 or 11:00.

Staff from our Urban Forestry Division will be presenting the report. We'll be there for moral support and to answer any project specific questions.

Sincerely,

-Lance O

We heard you did a great job representing the need for ficus removal yesterday. Thank you.

Will you be making a presentation at the BPW meeting on Monday?

We are planning to have a number of individuals / community groups attend that meeting to support the project. We've had a couple of these folks ask what time we expect that meeting to conclude? What would be normal? Are these meetings usually over by Noon? We understand that there are no promises but we are trying to assist people in planning their day.

Thanks Lance. Let me know as we may assist in any way.
